CONSULTING EXPERIENCES

BUSINESS INTELLIGENCE & FSI CONSULTANT

QUANTUM FBI, New York-Medellin, Remote | 2021 - 2024

- Spearheaded the development and execution of financial and operational ETL processes utilizing Alteryx Designer, significantly enhancing data integration and automation by 96% while maintaining a 100% reliability rate for customers in AI Robotics and Entertainment industries.
- Automated financial reporting using Microsoft Power Query, reducing manual effort significantly (87%), ensuring data reliability.
- Led enhancements to the Sage Intacct system, streamlining processes and boosting productivity, while continuing to provide continuous support to the finance team, optimizing operational efficiency and bolstering problemsolving skills, thereby contributing significantly to overall team effectiveness.
- Developed and deployed ETL Power Query and Power BI training, enhancing the team's analytical capabilities and data handling efficiency.

FINANCIAL SERVICES INDUSTRY SENIOR CONSULTANT

DELOITTE, Paris, France | 2018

- Directed comprehensive IT audits of 40 applications at **BNP Paribas**, focusing on ITGC and ITAC, ensuring regulatory compliance, risk management, and alignment with ISO 27001 standards through insightful meetings and interviews with business representatives.
- Conducted information system risk mapping to identify and address potential security threats.
- Reviewed and assessed internal processes for efficiency and compliance with regulatory standards.
- Strengthened IT controls, ensuring a secure operational framework within the financial sector.

IT RISK SERVICES AUDITOR & DATA ANALYST

GRANT THORNTON, Paris, France | 2017 - 2018

- Executed ITGC and ITAC audits in line with ISAE 3402 & ISO 27001 standards, ensuring regulatory compliance. Performed in-depth financial data analysis and ledger reviews for comprehensive financial reporting and FEC compliance.
- Led fiscal compliance initiatives, auditing dematerialized documents and evaluating hospital revenue cycles. Conducted thorough ERP system reviews, focusing on process migration and automation efficacy.
